

Release Notes

Version 2026.07.01

Released July 1, 2026

Screening form streamlined — sex now carries over from registration — and a flu-shot consent review is captured on the form for flu-enabled events.

Screening Form

- Removed the Sex selector from the screening form — gender is taken from the participant's registration (shown in the header) and still drives all sex-specific risk calculations (waist, HDL, grip).
- Flu Shot — Consent Review: when an event offers flu shots, the screening form shows the CDC influenza-vaccine acknowledgement statements with a “these items were reviewed with the participant” checkbox, saved with the screening record.

175	55	162

FLU SHOT — CONSENT REVIEW

Influenza Vaccine Information — U.S. Department of Health and Human Services, Centers for Disease Control and Prevention. Review the following with the participant:

- I have read or have had explained to me the information about influenza and influenza vaccine.
- I have had an opportunity to discuss the benefits and risks of influenza vaccine with a healthcare provider of my choice before coming here today.
- I have had a chance to ask questions which were answered to my satisfaction.
- I understand the benefits and risks of influenza vaccine and request that the vaccine be given to me.

☐ These items were reviewed with the participant.

LIFESTYLE RISK ASSESSMENT

During a typical day, how many servings of fruits & vegetables do you eat combined? (a serving ≈ ½ cup cooked, 1 cup raw, or a medium fruit)

05+

4 servings/day

During a typical week, how many minutes of moderate-intensity physical activity do you accumulate? (hard enough to raise your heart rate or break a sweat)

0150 (2.5 hrs)300+ (5 hrs)

Screening form — no Sex selector (gender carries over from registration), with the Flu Shot consent review shown for flu-enabled events
